LIVESTOCK EXHIBITOR CODE OF CONDUCT

The Lindsay Exhibition is committed to responsible animal care and treatment. This Code of Conduct outlines what is expected of livestock exhibitors in the handling and exhibiting of all animals involved with the LEX.

This Code has been developed to meet the following objectives:

- To ensure the health and well being of all animals at the fair.
- To demonstrate an accurate and responsible animal care message to the public.
- To maintain the integrity of all livestock competitions, displays, and sales.
- Livestock and poultry must be transported to and from the LEX in accordance with all humane transport regulations and standards.
- Loading and unloading must be undertaken using proper equipment and procedures.
- All animals must be treated and handled in a responsible manner. The well being of the animals shall take precedence over the demands of owners, sellers, buyers, organizers, sponsors, and officials.
- The care of all animals must be as consistent as possible with their normal schedules and standards. High standards of nutrition, health, sanitation, environment, and safety must be met at all times. All handling, housing and veterinary treatment must ensure adequate animal care.
- Livestock should be prepared with proper training, fitting, and grooming prior to the LEX. Excessive disciplining of animals at the LEX is unacceptable.
- Exhibitors are expected to provide adequate training for anyone handling their livestock. Untrained individuals, including LEX personnel and visitors, should not be permitted to handle animals or equipment.
- Exhibitors should take every opportunity to enhance public awareness, education and appreciation of proper livestock management and handling practices.

There will be no tolerance for any mistreatment of animals. Any unacceptable exhibitor conduct will be subject to action including possible elimination from the competition(s) and/or exhibit, at the discretion of the Board of Directors of the Lindsay Agricultural Society.

Vaccination Rules & Information

All horses attending Equestrian Canada sanctioned competitions must have met the requirements of Article A519, Vaccinations. [See Rules of Equestrian Canada, Section A, General Regulations, Article A519, Vaccinations.](#)

All horses attending Equestrian Canada sanctioned competitions must have been administered Equine Influenza and Equine Herpes Virus (1&4) vaccinations within 6 months (+21 days grace period) before arrival at the event. No horse shall receive vaccination within 7 days prior to arrival at the event. Horses not in compliance with this rule may be asked to leave the event site at the discretion of Competition Management. The frequency of vaccine administration should be as recommended by the vaccine manufacturer or veterinarian. It is recommended that vaccines be administered by or under the direction of a veterinarian. [Competition management may request 2022 Rules of Equestrian Canada Section A Page 25 supporting documentation confirming a horse's compliance with mandatory vaccination requirements.](#)

In the case of a horse that is unable to receive either of the vaccines, a letter from a veterinarian on official letterhead must be provided with the entry form, stating the horse cannot be vaccinated due to medical concerns. At the discretion of competition management, a log of the horse's temperature prior to arrival at the event site or during the event can be requested.

Equestrian Canada Statement of Principles

Equestrian Canada, the national equestrian federation of Canada, supports adherence to humane treatment of horses in all activities under its jurisdiction.

Equestrian Canada is committed to:

- Upholding the welfare of the horses, regardless of value, as a primary consideration in all activities;
- Requiring that horses be treated with kindness, respect and the compassion that they deserve, and that they never be subjected to mistreatment;
- Ensuring that owners, trainers and exhibitors or their agents use responsible care in the handling, treatment and transportation of their horses as well as horses placed in their care for any purpose;
- Providing for the continuous well-being of horses by encouraging routine inspection and consultation with health care professionals and competition officials to achieve the highest possible standards of nutrition, health, comfort and safety as a matter of standard operating procedure;
- Continuing to support scientific studies on equine health and welfare;
- Requiring owners, trainers and exhibitors to know and follow their sanctioning organization's rules, and to work within industry regulations in all equestrian competition;
- Reviewing, revising and developing competition rules and regulations that protect the welfare of the horses.

The standard by which conduct, or treatment will be measured is that which a person, informed and experienced in generally accepted equine training and exhibition procedures, would determine to be either cruel, abusive, nor inhumane.
